

System requirements IBM SPSS Statistics 25

For Windows:

Operating system

- Windows 7 (SDP 1), Windows 8, Windows 10 (each 32-Bit- or 64-Bit versions)

Configuration

- Processor with 2 GHz or higher.
- 4 GB Ram or more, for 64-Bit Clients at least 8 GB
- 2 GB free space on the hard disk. If you install more than one help language, you must be aware that each additional language requires 60-70 MB disk space.

Display

- 1024*768 or higher resolution.

For Mac:

Operating system

- Mac OS X Yosemite 10.10 or OS X El Capitan 10.11 or macOS Sierra 10.12 (each x86-64)

Configuration

- Processor with 2 GHz or more.
- 8 GB RAM or more.
- 2 GB free space on the hard disk. If you install more than one help language, you must be aware that each additional language requires 60-70 MB disk space.

Display

- 1024*768 or higher resolution.

For Linux:

Operating system

- Red Hat Enterprise Linux (RHEL) Client 6 or 7, or Ubuntu 14.10, 14.04 LTS, 16.04 LTS (each x86-64)

Configuration

- Processor with 2 GHz or more.
- 8 GB RAM or more.
- 2 GB free space on the hard disk. If you install more than one help language, you must be aware that each additional language requires 60-70 MB disk space.
- Since the installation program is installed before the installation files are unpacked the installation program requires the same amount of temporary storage space. If the memorandum/tmp or in the home-directory does not have enough storage space available,

use the environment variable IATE MPDIR to create another temporary directory for the extracted files of the installer. After the installation you can remove this folder.

Display

- 1024*768 or higher resolution.
